

Dear Sirs:

I have been a subscriber to XM satellite radio for about 6 months - 2 vehicles. It has been wonderful as both my wife and I spend a lot of time in our car. With respect to the current issue - XM Instant Traffic & Weather - we also travel out of state and this is a great help to us when visiting other cities. First, it allows us to get information before we arrive and thus can be better prepared. Secondly, it is difficult to find which station in a metropolitan area carries this information if you are unfamiliar with the area. Also, the local stations tend to carry this information only during the morning and evening "drive times".
